a Pole 122 Miles High
Few people have even the faintest conception of the magnitude of the electric service to a city such as Los Angeles.
Imagine if you could see a light pole 122 miles high, have an approximate combined length of the light poles used to carry the electric service to the Electric Corporation in Los Angeles.
Allowing a line of poles, and keeping them climbing every day eight hours every day, take him more than 100 years to climb to the top of the pole.
This item, which is many, involves a vast investment which is necessary for the future.

LOS ANGELES TIMES

EXTERMINATE I.W.W. IS SLOGAN

SACRAMENTO, Nov. 13.—At a meeting of the executive committee of the American Legion in this city tonight strong resolutions were adopted demanding the "extermination" of the I.W.W. because of the Centralia outrage. The resolutions assert that the attack on the Armistice Day parade was no less than a declaration of war on the Legion. They call for a mass meeting of the Legion to be held Monday at which steps will be taken to wipe out every trace of the I.W.W. in Sacramento. The resolutions say that the purpose of the I.W.W. is to destroy the American government and that this same policy must be applied to that organization.

LATER :: L :: NEWS
Delaware Race Rioting.
WILMINGTON (Del.) Nov. 13.—Rioting between white and negro broke out here tonight following the killing of one policeman and the wounding of another by negroes whom they were questioning regarding a recent robbery. A clash occurred when about 300 negroes came upon four negroes. Both sides opened fire and about 100 negroes were killed. The dead, one of whom was a white man, was taken to the hospital from which he is expected to recover.
The whites then closed in on the other negroes, who were saved only by the prompt arrival of fifteen policemen.

GOVERNMENT WILL FIGHT UNIONISM TO A FINISH.
Organized Labor Prepares for a Death Struggle with the Forces of Law and Order.
BY ARTHUR SEARS HENNING.
(EXCLUSIVE DISPATCH.)
WASHINGTON, Nov. 13.—While plans are being perfected for the settlement of the mine-wage dispute by negotiations between the miners and the operators, other developments indicate conclusively that the war between organized labor and all government agencies seeking to curb the right to strike will be fought to a finish.
The Federation of Labor is taking steps to defend the fundamental principle of organized labor with action along these lines:
Advising the United States Supreme Court as to the order enjoining the coal miners' strike.
Opposing in Congress the extension of the Lever War-time Food and Fuel Act, which Attorney General Palmer has asked for the passage of dealing with strikes or other restrictions of production.
Fighting the anti-strike provision of the Cummins railroad bill, which also provides for compulsory arbitration of railroad-wage disputes.
Unless President Wilson retreats from the position he assumed in supporting the mine strike, the Federation of Labor will show all of its strength to meet the attack of organized labor, both in the courts and in Congress.
Advising the Supreme Court as to the order enjoining the coal miners' strike.
Opposing in Congress the extension of the Lever War-time Food and Fuel Act, which Attorney General Palmer has asked for the passage of dealing with strikes or other restrictions of production.
Fighting the anti-strike provision of the Cummins railroad bill, which also provides for compulsory arbitration of railroad-wage disputes.

WIPE OUT REDS WAR CRY OF AMERICAN LEGION; MEN HERE TO DRILL FOR EMERGENCIES
Demands upon the Mayor and City Council to forbid any assembly of the I.W.W. or other anarchist representatives in Los Angeles, the organization of an armed military force embracing all branches of service to combat "Reds" and flaming challenges leveled at the I.W.W. were features of the "indignation meeting" held last night at the Elks Club, Trinity Hotel. The meeting was called to formulate plans to combat the "Reds" in Los Angeles and to drive them from the city.
The emergency military branch will hold a mass meeting in Pershing Square tomorrow noon. Col. Charles S. Hutchins is in charge of the organization work.
Declaring that the American Legionnaires had assembled for business and to test their mettle, J. H. Merrill, a member of the executive committee, fired the first shot at the I.W.W. with the statement:
"When our comrades were shot down in cold blood at Centralia on Armistice Day, that one set of the I.W.W. makes took the 'ax' out of ex-service men, and we are service men—some more."

EDITOR IS ARRESTED.
Blames Centralia Riot on Dead.
Espionage Charge is Placed Against Head of Organized Labor Organ.
Truckload of Copies Seized by Federal Officers in Seattle Plant.
(BY A. P. NIGHT WIRE.)
SEATTLE, Nov. 13.—Federal officers today raided the office of the Seattle Union Record, seized the entire plant and arrested several employees, including the editor, among them, United States District Attorney Robert C. Smiley and the editor, who was taken to the Washington Federal House. A truckload of copies of the paper was seized by federal officers in Seattle. The paper is owned by the Seattle Central Labor Council.

PROSECUTOR IS SLAIN.
TUCSON (Ariz.) Nov. 13.—A. J. Flannery, a prosecutor aged 44 of Tucson, Ariz., was shot and killed here tonight in front of a theater in the lower end of town. Flannery was shot by a man who was seen to have a wound in the head from which he is expected to recover.
The writer then closed in on the other negroes, who were saved only by the prompt arrival of fifteen policemen.

Fire Destroys Mail.
SACRAMENTO, Nov. 13.—A half carload of mail on mail train No. 34 was destroyed by fire, it was announced at the Southern Pacific station here tonight. The train arrived nine hours late.
The local officials could give neither definite about the destruction of the mail. They do not know when the fire occurred nor the value of the mail destroyed. The bulk of the mail, however, came from Chicago and New York. Part of the registered mail was destroyed.

GO INTO POLITICS.
If the Democratic party upholds the administration, it must be compelled to look to the Republicans for support. In default of this, it would have no recourse save the formation of an independent labor party, a move he steadily has discouraged.
The administration, advised now that public sentiment approves the breaking of the mine strike by the injunction process, a new crisis will be presented. If the railway brotherhoods, now negotiating with Director-General Hines for wage adjustments, should fail to obtain satisfaction and order a strike.
PREDICT RAIL STRIKE.
It is doubtful that the brotherhoods will obtain the wage advances sought on the eve of the return of the railroads to their owners, and rail union leaders are predicting a strike by December 1.
Government officials think that a railway strike could be enjoined under the Lever act, unless, meaning, peace is secured by the injunction process.

BAKERSFIELD MEN JOIN MOVEMENT TO SUPPRESS ANARCHY.
BAKERSFIELD (Cal.) Nov. 13.—The American Legion of Bakersfield, at its regular meeting tonight, went on record in favor of "wiping out the country of such alien agitators and propagandists as are fomenting discord and advancing disloyal doctrines," and declaring for an Americanization committee "which shall be empowered to give such assistance as may be necessary in bringing about full realization of the program of 100 per cent. Americanism which the American Legion in national convention has just adopted."

ENTRANCE OF I.W.W.'S PREVENTED BY PATROL
TUCSON (Ariz.) Nov. 13.—With the limited force attached to the immigration office of this district, every effort is being made to patrol border entry ports by immigration officers, according to Chief Inspector Scott. Every available office has been sent to border points in Arizona to prevent any possible entrance of I.W.W. or other agitators.

SYNDICALISTS POSTING LITERATURE IN LIBRARY
EUREKA, Nov. 13.—Two men arrested last night at Arcata on charges of posting literature of the Industrial Workers of the World about the town and in the public library were brought to the County Jail at Eureka today after a charge of syndicalism had been placed against them. They gave their names as Charles Lewis, 34 years old, and Henry Gilkovich, 19.

CITIZENS ARM TO DEFEND JAIL.
TACOMA, Nov. 13.—A report that I.W.W.'s were gathering at Burdett, Wash., in preparation for attacking the Thurston County Jail at Olympia to release three men arrested at Centralia Tuesday, brought every available citizen who could acquire a weapon to the jail tonight, a message to the Tacoma Ledger, from Olympia, says.
The prisoners, it was said, are Commodore Brand, suspected of being the slayer of Lieut. Warren Gribben, Attorney Elmer S. Smith and John Dee Reynolds.
While the armed citizens were assembling at the jail, the dispatch said, the three prisoners were rushed into an automobile and started for the State reformatory at Monroe, Wash.
A posse was formed and left for Burdett to round up any radicals found there.
Members of the Sheriff's force and local police, aided by former soldiers, tonight boarded a Tacoma and Eastern train at Blinnhart, a suburb, and an arriving in Tacoma arrested eighteen passengers, alleged to be I.W.W.'s. Still other suspects are believed to have left the train just before reaching Blinnhart and a posse was left to search for them. The men arrested here came from Mineral, Wash.
Three men suspected of being among the alleged Industrial Workers of the World who escaped from Centralia, following the shooting of American Legion men Tuesday, have been caught at Morton, Wash., a telephone message to the Ledger tonight said.
The men were arrested, the message said, through their use of an automobile reported stolen from W. H. Lester of Centralia, Deputy Sheriff W. B. Condon identifying the machine from the number stamped on the motor.
Sheriff Berry of Lewis county was reported on route from Chehalis to Morton to bring the men to Centralia, and search warrants are being issued to search the homes of suspected I.W.W. sympathizers at Morton, according to the message.
United States Dist. Atty. Saunders

Burglars Slay Grocer.
SAN FRANCISCO, Nov. 13.—A customer found L. M. Walter dying on the floor of his grocery store in the residence district tonight, a bullet hole through his body and a soda bottle clutched in his hand. He died shortly after he was found. The store was closed and the cash register was empty. No trace was found of the assailant.

PLANNERS URGE I.W.W. ROUND-UP.
WASH. (Nov. 13.—Gov. Hays announced here today he would lead a State-wide campaign to wipe out Industrial Workers of the World, and other radicals. Today he addressed a committee on Washington protesting attorneys, sheriffs and police officers to make the prosecution of radicals the first business of the State.

PLAN SCHOOL OF ANARCHY.
Stenographic Record of Radical Meeting Here Evidence Against Flowers.
New evidence directly connecting Sidney R. Flowers, editor of the Dugout, and president of the Allied World War Veterans, who is under indictment charged with violating the criminal syndicalism law, with taking part in diabolical propaganda, was laid before the District Attorney and the Federal Department of Justice yesterday. The most important part consists of a stenographic report of the proceedings at a secret meeting of the radical leaders of the city, at which, the government officials said, a fund of \$1500 raised to found a school of anarchy in Los Angeles similar to the school which was held in New York. Flowers was a speaker at this meeting, a feature of which was the reading of a letter which was the name of Nikolai Lenin, the Bolshevik leader of Russia.
More than 400 men and women attended the meeting, which was held behind closed doors and drawn curtains in a cafeteria at Third and Hill streets. In view of the attention of the authorities as well as of the law-abiding people of the city has been drawn to the fact that there are at least eight headquarters in Los Angeles where I.W.W. and other radical meetings are regularly held, and the overthrow of the American government is plotted. At the meeting held at the Walker Theater Building on Wednesday evening the government was openly attacked, and a fund

SPREAD DISLOYALTY.
At one of these headquarters, in the Germain Building, the words "Industrial Workers of the World" are boldly appear on the door. Lists are in the possession of investigators giving the names of 1000 people in Southern California who carry stamped and numbered I.W.W. cards and who are regularly assigned to places where they are directed to spread diabolical propaganda.
All of the local leaders in the radical movement attended the meeting at Third and Hill streets. Attorney J. H. Ryckman was chairman. Flowers, who was introduced as "Comrade" Flowers, said:
"I was just thinking what a job it must have been to our beautiful, freedom-loving newspaper in Los Angeles, The Times, to have heard of the murder of Nikolai Lenin."
After telling of what he claimed was his experience as a Canadian soldier in France, Flowers said:
"I remember the equivalent of our Los Angeles Times here, the London Mail, coming out openly advocating the bombing of Berlin. London was bombed, yes.
"There are millions like I am now, and a lot of these millions were actually fighting for and dying for democracy. They didn't get it. None of us did. If this war was a commercial and an industrial war, it would have been a success."

NO RESULT IN RAIL WAGE CONFERENCES.
WASHINGTON, Nov. 13.—The conference between railroad brotherhood chiefs and Director-General of Railroads Hines over the employees' demands for increased wages and revised working conditions went into its third day without an agreement in sight.

Post-Bellum Club Launched.
BERLIN, Nov. 11.—Berlin's first post-war international club was opened last night with general American, British, French, Belgian and Italian missions as guests of honor. It is called the Travelers' Club. The American and English correspondents launched it, but the membership principally is drawn from the military missions. It has a handsome building on Holstenstrasse.

TELLS GANG TO GO.
"The government has just closed our paper. You will all leave the office as soon as you can get ready." During Seattle's general strike last February it was charged that the Equity plant printed, allowed the distribution of, and the Seattle Mayor, closed the plant for a time. Seattle's Central Labor Council last night adopted a resolution favoring violence, but asking union labor to refrain from committing the crime of the I.W.W. in firing on the parade. The resolution placed the blame for the outrage on the hands of what it termed the "lawless business element of Centralia." Federal State and county officials of Washington, assisted by federal troops, today continued to search for alleged members of the I.W.W. Deportation of some of the radicals at Centralia was planned by Henry M. Walsh, Immigration Commissioner.
"Arrest every I.W.W. whether he has a card or is known to be active in the I.W.W.," today continued to hold them for federal investigation, read instructions to officers from United States Dist. Atty. Saunders.
"In my judgment the I.W.W. have gone far enough with their acts to emphasize the truth that their principle is the overthrowing of the government, including the Federal government," Saunders declared. "I do not believe the I.W.W. shot at those former soldiers at Centralia out of

PARIS, Nov. 13.—The bare publication of Representative Sherwood's intimations that Gen. Pershing never was under fire has aroused a storm of protest among the American forces in France and on the Rhine. Yanks who fought at the Somme, in the Marne, in Flanders, Champagne, Lorraine and Alsace denounced these intimations as despicable and explainable only by Mr. Sherwood's biography, which gives his age as 46, and this, they say, suggests the only possible cause—his senility.

"Look! There's the Light of Hope—An Unfolding Game of Good Health and a Long Life."

LYKO Illuminates the Future

With Its Rays of Hope

For All Who Would Enjoy Perfect Health

This remarkable tonic is the inspiration and joy of the weak and debilitated. It brings back the sunshine of existence to those of lost vitality. It opens up wonderful visions of the future to the down-cast, weary-laden souls depressed in spirit and body. It creates the strength and the courage to fight winning battles in those who have lost heart, given up exhausted under the strain and weight of their daily burdens. It shines upon the vital spark of life in the slumbering body of the languishing, causing it to burst forth as in a radiant glow of perfect health.

"LYKO" is, indeed, of great restorative power! Let Nature's first aid in nearly all sub-normal conditions. A general tonic in the broadest sense, it rebuilds the entire system because of its effective and beneficial action upon all of the principal organs of the body. It increases the appetite, promotes digestion and proper assimilation, strengthens the nerves, tones the heart, improves the function of the liver, regulates the bowels and tends to relieve suppressed conditions of the kidneys.

If you are thin-blooded, pale and weak, physically and nervously exhausted, generally run-down, devoid of animation, or lacking in endurance and energy, and mentally depressed in consequence, let "LYKO" increase your vital force and bring back to you that buoyancy, energy and cheerfulness of former days. Try it today and see how much better you feel tomorrow. Your druggist has "LYKO." Get a bottle today.

"As Strengthening As the Bracing Sea Breeze"

DAILY TRADE TALK.

Los Angeles Traders Weather the Storm; Business News.

BY CHAPIN HALL.

Traders emerged from their cocoon yesterday and took account of stock after the hurricane of Wednesday, which blew away many of the old familiar landmarks and wiped out many a chicken coop where dollars had been insecurely roosting. There were plenty of stories of local speculators who had done some of the tallest hunting of their careers in raising funds to protect their margins, and here and there a touch of real tragedy in cases where the action was too swift for them to even take advantage of a sure fire law.

One Los Angeles firm is said to have hurried \$1,000,000 to New York from local customers in response to the insistent demand for margins, and the stocks were tumbling. Hundreds of thousands of shares were raised on available collateral, and the banks had the busiest day of recent receding. Traders turned over their hands in an effort to weather the storm, and most of them succeeded. Today they look the worse for wear, but happy in the belief that the blow is over.

The firm stability of the local financial market was splendidly exemplified and in the widest bear movement of years, very few were unable to realize on their collateral, sufficient to avert actual ruin. One big brokerage concern boasts that only one of its accounts was closed out, and a large bank, which, as a precautionary measure, inspected every piece of collateral paper in its possession after the close of business Wednesday, did not find it necessary to liquidate a single loan.

As predicted, the market yesterday was soft and nervous, but there were no further declines and the close was very above that of the preceding day. It will be a long time before many of the stocks reach the high levels reached just before the crash, but business at that level was abnormal and the adjustment is almost sure to be upon a more healthy scale.

As a result of the heavy liquidation to meet margin requirements, the bank clearings for the day established a new high record, \$1,184,548.48. This is the highest mark ever attained in Los Angeles and tops the best previous day by about \$150,000. The total clearing for the two days of storm center aggregate approximately \$2,369,096.

The money market is really the key to the situation. Call money declined to 6 per cent. yesterday, compared to a close of 10 per cent. on Wednesday. Eastern bank clearing circles appear to believe that money will be easier within the next few days and local bankers say that with careful handling there is nothing to worry about.

It is probable that there will be a further receding of the rally yesterday being largely due to short covering. The bargain hunters will be in evidence today and by the time the week ends many think the market will be back on a substantial basis. At the same time, it is said, provision should be made to meet any possible margin requirements.

The local market yesterday was of much better tone and there was an element of strength throughout the trading that was entirely absent the day before. Associated opened at \$115, advanced to \$117, fluctuated at \$117.50 and closed at \$118. General Petroleum sold during the morning at \$117.50 and closed in the afternoon with a bid of \$118. Republic Petroleum opened strong at 114 cents, softened slightly to 113 cents with closing sales at 113 1/4 cents. National Pacific was weak in the morning at 14 1/2 cents, but closed with a strong upward tendency at 15 1/4 cents. Union Oil, which sold Wednesday at \$17.50, moved up to a strong close of \$18.75. United also showed sharp recovery tendencies and closed with a high bid of \$6 1/4 cents with an stock offered for less than \$6 cents.

Industrials were steady, except for Pacific Cotton Mills which weakened to \$17.50 and closed with a bid of \$17.50. Union Pacific was bid up to \$64, with no sales. Interest in mines chiefly centered in the activities of United Eastern, which opened at \$4.05, dropped to \$4, recovered at \$4.05, some think that the selling movement in this mine is about over and that with the restoration of normal working conditions at the mine the price will again improve. Tom Reed was steady at \$14.50. Bonds were weak. Security Branch Bank.

The new Hollywood branch of the Security Trust and Savings Bank will be opened for business next morning. This branch is formed by a consolidation of Hollywood banks and will be established in attractive quarters at Hollywood boulevard and Chatsworth avenue. The personnel of the old bank will be retained, but the resources of the parent institution will follow it.

National City Issues.
The National City Company reports that the sale of the \$45,000,000 issue of French City bonds.

Could You Operate Your Business Without Ink?

Why not share, then, in the profits of the fourth largest printing ink company in the United States?

\$500,000

California Ink Company, Inc.

Preferred 7% Cumulative Stock. Price 100 and Accrued Dividend

Think of the numberless times every day you make use of some piece of printing or lithography in your daily business—checks, sales books, labels, catalogs, advertisements, letterheads and a thousand and one other things. Without ink business could not function.

Small wonder, then, that the 7% Preferred Stock of the California Ink Company, Inc., offers you an investment backed by net earnings averaging more than \$95,000 annually for the past eight years—more than three times all dividend charges.

The California Ink Company, Inc., is the largest manufacturer of printing and lithographic inks west of Cincinnati, and is the fourth largest in the United States. Its main factories are at Berkeley, Cal.

It is a consolidation of the lithographic and printing ink business of Geo. D. Graham, the California Aniline and Chemical Company and the California Ink Company (predecessor company). The business of Geo. D. Graham was established in San Francisco, February, 1890; the California Ink Company in 1891, and the California Aniline and Chemical Company (owned entirely by the California Ink Company) in 1917. Ownership of this company makes the California Ink Company, Inc., independent of foreign supply for essential dyes and chemicals.

Today 90% of the daily newspapers and 75% of the millions of labels made west of Denver are printed with ink made by the California Ink Company, Inc. The Company enjoys an export trade to the Orient and Australia, which is greater than the combined business of all its competitors.

Examine carefully the following features of this security and decide today how much of your money you can place in this successful, growing California corporation.

CAPITALIZATION

CLASS	Preferred 7% Cumulative	Common
Authorized	\$500,000	\$500,000
Outstanding	2,000,000	850,000

Preferred issue of \$500,000 is preferred both as to assets and earnings.

Annual Sinking Fund, beginning November 1, 1920, is sufficient to retire whole issue in 10 years at 107 1/2% plus accrued dividends.

Sinking fund payments, due November 1 of each year, become an enforceable claim against the company on that date.

No stock having priority over, or being on a parity with this stock, can be authorized, nor can the company during the life of this issue create any mortgage indebtedness or any unsecured indebtedness running more than twelve months without the written consent of at least three-fourths of the outstanding preferred stock.

Net current assets shall at all times equal 125% of outstanding preferred stock.

Articles of Incorporation of California Ink Company, Inc., provide that the Company shall deposit the following amounts on the following dates with the Bank of California, N. A., San Francisco, as Trustee:

November 1, 1920	November 1, 1921	November 1, 1922	November 1, 1923	November 1, 1924	November 1, 1925	November 1, 1926	November 1, 1927	November 1, 1928	November 1, 1929	November 1, 1930
\$50,000	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000

Trustee shall use the funds in the Sinking Fund to purchase outstanding Preferred Stock at not more than 107 1/2% plus accrued dividends.

This entire issue is callable as a whole at \$107.50 and accrued dividend on 90 days' notice. Dividends payable on the 1st day of November, February, May and August. Par value shares \$100, exempt from personal property tax in California, fully paid and non-assessable.

We have purchased and recommend California Ink Company, Inc. Preferred 7% Cumulative Stock to conservative investors. Write, phone or call.

WIFE CHARGES THEFT.
Husband stole furniture he once gave her, she says.
George W. Young was held to answer yesterday by Justice Hanly for the alleged theft of furniture he gave his wife, Mrs. Marie J. Young, before their marriage. Mrs. Young testified that before the marriage in Chicago, Young made her a present of the furniture and that she put it into a house at 711 East Thirty-fifth street, which she had purchased.

After a disagreement between Young and his wife, the furniture disappeared and Mrs. Young says her husband took it out a window and had it hauled away. Young said he did not give the furniture to his wife, but a witness told of a conversation in which Young mentioned the gift.

MAY PUT BAN ON ICE CREAM.

Milk Price Investigation Takes Unusual Tack.

Say Consumption of Fluid is Exceeding All Bounds.

Would Have Us Alternate with "Condensed" Stuff.

Ice cream worse than liquor in being the cradle of the poor? This is a question which was discussed at yesterday's meeting of the Mayor's recently-appointed committee to investigate the present prices of milk, and it was seriously proposed that a general campaign be started, especially through the women's clubs and church societies, to urge the curtailment of the use of ice cream.

In statements laid before the committee it was shown that the use of ice cream has increased more than 500 per cent. in the past ten years and that approximately 100,000 gallons of ice cream are consumed in Los Angeles county daily.

"Every dish of ice cream used simply increased the price of the milk for the baby of the poor family," was one statement made. Another proposal was that housewives should be encouraged to cut off the use of milk for a week at a time, and that the use of condensed milk should take the place of the fresh product. If it remains at a lower price than the fresh product, Assistant City Attorney Jess Stephens cautioned members of the committee against the possible outcome of what would practically be a boycott—that it might be the means of forcing the small dairymen out of business and leaving milk production at the mercy of a few large concerns.

James P. Britt, superintendent of municipal markets, gave figures showing that various milk concerns have charged off more to the cost of distributing milk than the amount paid to the producers of the same milk. He also stated that the committee called attention to the duplication of distribution. Dr. John H. Haynes stated that he knew of a apartment-house here where six milkmen are making deliveries. After discussing various phases of the subject, the committee decided to undertake to secure a report on the cost of milk, from the dairy to the receiving station, and the cost of distribution to the consumers, as a basis for determining whether or not present prices are justified and to show where costs could be reduced. Mayor's committee will request the City Auditor to provide an expert accountant from his department to work with the committee.

The committee instructed its secretary to address letters to each of the milk-handling concerns here, asking them to present the state of the case, showing why they are justified in charging 16 cents a quart for milk in Los Angeles.

Among various plans suggested for possible relief, there was considerable discussion of a system of municipal distribution of milk and also of the distributing of the city for the various private distributors, although the Assistant City Attorney advised that such a plan would be a violation of the city charter, which prohibits the city from acting as a distributor to supply only a certain section.

In accordance with the first meeting of the committee was James P. Britt, chairman; Dr. John H. Haynes, Dr. Ralph L. Byrnes, Assistant City Attorney; Jess Stephens, City Auditor; Mrs. Katherine A. James and Mayor Snyder.

ORGANIZE TO HELP STRICKEN RUSSIANS.
CHARLES W. ELLIOT AND ELIHU ROOT CHLOST PERMANENT OFFICERS.

(BY A. P. NIGHT WIRE.)
NEW YORK, Nov. 13.—Organization of the American Central Committee for Russian Relief was effected today with the election of Charles W. Elliot, president-emeritus of Harvard University, as its first president. His purpose is to coordinate the collection of funds and the shipping of food, clothing and other necessities to the stricken people of Russia.

Elihu Root presided at the organization meeting today. He declared that political and other circumstances have, during the war, prevented much assistance being given to the Russian people, has been removed. The organization of the central committee as a nonpartisan now makes possible effective relief work, he said.

Mr. Root was elected a vice-president of the organization. Samuel McElwain was elected treasurer and Princess Julia Cantacuzene Speransky was made chairman of the board of directors, which includes civilian members of the Root committee to Russia and prominent Russians in this country.

WILL CLEAR RADICALS FROM MINING CAMPS.
WEST VIRGINIA GOVERNOR'S APPEAL GETS SPEEDY FEDERAL ACTION.

(BY A. P. NIGHT WIRE.)
CHARLESTON (W. Va.) Nov. 13.—Agents of the Department of Justice are en route to the coal mining districts of West Virginia. Gov. Cornwell announced tonight, following advice from Washington to that effect. It will be the purpose to "clean out radical centers" and round up I. W. W. and Russian agitators, he said.

Gov. Cornwell said Federal troops in the State would not be used at this time, but should developments warrant it he will ask for their aid. Thus far the situation appears to be that the radicals are being driven out of the State by Federal authorities, the Governor added, but asserted the State would co-operate.

James P. Britt, superintendent of municipal markets, gave figures showing that various milk concerns have charged off more to the cost of distributing milk than the amount paid to the producers of the same milk. He also stated that the committee called attention to the duplication of distribution. Dr. John H. Haynes stated that he knew of a apartment-house here where six milkmen are making deliveries. Twice Last Year's Stocks in Cold Storage Here.

City Council's Report Says Warehouses are Full.

Eggs, Butter, Cheese Found in Large Quantities.

The cold storage plants of Los Angeles are loaded with food products, and have nearly double the amount of such products in storage that they had on the same date a year ago, was the statement made in a preliminary report to the City Council yesterday by the city departments conducting an investigation of stored food supplies.

A few days ago the City Council authorized the City Prosecutor and the City Auditor to make an investigation, and the report was presented by James P. Britt, superintendent of municipal markets, and Thomas Foss, chief investigator for the City Prosecutor's office.

The statement is made that the five cold storage plants operating under city license and storing foods were visited, and that the officials showed their books and reports made to the House Board of Health and the Federal government.

They report in cold storage in Los Angeles 66,107 crates of eggs, as against 32,517 last year at this time; 115,939 pounds of butter, as against 171,379 pounds last year; 1,344,036 pounds of cheese, compared with 787,423 pounds last year; 543,759 boxes of apples, compared with 463,464 boxes last year; 56,080 sacks of onions, as against last year's 3930 sacks.

At the present time, says the report, "the cold storage warehouses are loaded to their utmost capacity with apples, which are coming in faster than they are able to take care of them, while eggs are now in the diminishing period and are being moved out very rapidly."

In the conclusion of this preliminary report, the investigators say: "We particularly desire to call your attention to the fact that several of the well-known caterers of the city are using frozen canned eggs, imported to this country from China, in three different grades, put in cold storage in China, shipped to this country in cold storage, and then held here in cold storage until such time as required by the caterers for pastry and other similar purposes."

The canned China eggs are handled by only one of the five cold storage warehouses in the city. Frozen eggs are sold to the caterers by the house at a price considerably below what fresh or other American produce eggs would bring. It is a well-known fact that eggs produced under the conditions of life in China are not to be compared in any possible way with the sanitary conditions of the egg production in this country, taking into consideration the unsanitary conditions of periodical plague infestations.

Conditions are good. "We find that the cold storage warehouses are kept in a very clean and sanitary condition, and frequently inspected by the officers of the board of health."

"This report takes up the first part of the investigation, and we shall continue, under the direction of the City Prosecutor, to make a careful investigation of every possible place where food could be stored."

MAYORS ASK LAW FOR "REDS" DEPORTATION.
PORTLAND (Or.) Nov. 13.—Enactment of federal law under which officials may operate to rid American communities of alien radicals and all others who are preaching disruption of the government by violence or disloyalty to this country was urged in a telegram sent today to the President of the United States senate by Mayor George L. Baker, chairman of the League of Mayors of the United States.

THE DALLIES (Or.) Nov. 13.—In search of a group of I. W. W. agitators, the Dallas police authorities today went through the city. While people slept last night pamphlets urging construction workers to quit their present affiliations and join the so-called Industrial Workers' Union, a radical organization, were pasted on buildings along the streets.

FOR SEWER WORK.
An ordinance was adopted by the City Council yesterday authorizing the property owners to sewer by private contract a portion of the city sewer system, between Hollywood boulevard and a point 250 feet north of the city line.

The Council approved the assessment district map for the improvement of Westmoreland avenue, between San Marino and Tenth streets.

CENTRALIA PLOT DUE TO FEDERAL LAXITY.
SEATTLE, Nov. 13.—Representatives of the Executive Committee of the State of Washington Legion organization have wired J. J. Sullivan, Seattle delegate to the Legion convention at Minneapolis, stating the Centralia shooting "was largely due to the failure of the Federal government to prosecute or deport men preaching sedition."

The Washington men asked the Minneapolis convention to adopt resolutions asking the government to take immediate steps to enforce the laws for the suppression of the I. W. W.

UNION MINE LEADERS ARRIVING AT CAPITAL.
INDIANAPOLIS, Nov. 13.—All officials of the United Mine Workers of America tonight either were in Washington or en route to that city for the conference of miners' representatives and operators with Secretary of Labor Wilson which begins tomorrow.

NEW ERA MOVEMENT GIVEN GOOD START.

SIX PRESBYTERIAN CHURCHES HOLD CONFERENCE IN WESTLAKE EDIFICE.

The "new era" movement of the Presbyterian general assembly of the United States, which has for its object the raising of \$30,000,000 per year for the next five years, increasing the membership of the church by 2,000,000 members and the institution of 250,000 family altars in the United States, was started in this city last night when a conference was held of the six churches, Westlake, Wilshire, Bethany, West Adams, Emmanuel and Japanese, which comprise the central district of the local presbytery.

Rev. James H. Spear of San Francisco, who is in charge of the national movement in the Pacific Coast States, Utah, Nevada, Wyoming and Colorado, was in charge of the conference, and he and Dr. R. S. Don-

aldson of San Francisco outlined the plan of the national movement. Representatives from all the six churches attended and entered into the discussions. The district has decided on an extensive campaign of advertising in the daily papers to acquaint the people with the aims of the movement. Westlake church was packed to capacity with representatives from the different churches. The conference began at 8:30 o'clock in the afternoon and continued until late at night. A banquet was served in the parlors of the church to the visitors and the local representatives.

BAY STATE BATTLE ON DRY LAW OPENS.
LEGAL FIGHT AGAINST VOLUNTARY ACT STARTS WITH BREWERS' INJUNCTION.

(BY A. P. NIGHT WIRE.)
BOSTON, Nov. 13.—The first step in an attempt to prevent enforcement in this State of the Volstead Prohibition Enforcement Act was taken today when the New England Brewing Company filed in the Federal court a bill in equity, seeking a preliminary injunction restraining United States District Attorney Boynton and Acting Collector of Internal Revenue Casey from enforcing the act against them, on the ground that it is unconstitutional.

Judge George Anderson will give hearing on the bill on November 17. The bill alleges that the national prohibition act is unconstitutional in that it seeks to enforce and provide for national prohibition during the period which must elapse before the eighteenth amendment of the constitution will become effective, and because it violates the tenth amendment.

LYNN (Mass.) Nov. 13.—Jamaica singer cannot be sold at wholesale in this State to stores for use as a beverage, according to a decision by Judge Henry C. Lummus in the Federal court here today. The District Court here today, Judge pointed out that the case had no bearing on national prohibition, but was based on the State law of 1899.

He found the members of Charles Crompton and Sons, Inc., manufacturing chemists of this city, guilty of illegally keeping and selling intoxicants and maintaining a liquor nuisance, and imposed fines amounting to \$2000.

An appeal was taken.

"SEE AMERICA FIRST," HOTEL MEN'S SLOGAN.
NEW YORK, Nov. 13.—As another means of recouping financial losses resulting from prohibition, the hotel men of the country, in session here, were asked today to endorse a "see America first" campaign. As the first step they were advised to attempt to convince banks and the American Railway Express Company that they should cease advertising the sale of travelers' checks which are good in other countries.

The argument presented to the hotel proprietors was that it would be most advantageous to them if they could influence Americans to travel and spend their money in the United States and Canada. It was stated that San Diego and Los Angeles have appropriated \$150,000 each for advertising to carry on the campaign, and that Congress will be asked to make appropriations for the same purpose.

ENGLISH BAN STAYS ON LILLIAN S. TROY.
[BY CABLE AND ASSOCIATED PRESS.]
LONDON, Nov. 13.—Replying to a question in the House of Commons today as to whether Lillian S. Troy would be allowed to return to England, Home Secretary Short said she had been deported as an undesirable alien and that for the same reason she would not be allowed to return.

[The Lillian S. Troy of San Francisco arrived in New York last April, after being deported from London for opposing the war effort. She was said to have been deported to escape the effects of the war effort. She was said to have been deported to escape the effects of the war effort.]

THIRD OF MARRIAGE.
Ray Glyn was granted a divorce from Frances E. Glyn by Judge Crall yesterday on the ground of desertion. Mrs. Glyn told her husband, he said, she was tired of married life and left him.

Spanish Official Quits in Hall.
[BY A. P. NIGHT WIRE.]
MADRID, Nov. 13.—Senator Burgos, Minister of the Interior, has offered his resignation because of the Cabinet's rejection of his proposition regarding a working agreement between the employers and the workmen.
